Profile

I am Clentan Chauke, a BSc (Mathematics & Computer Science) graduate with expertise in JavaScript. As a co-founder of the ULDev Society & The Engineers , I led initiatives in web development and career guidance. I am committed to creating user-friendly solutions and passionate about contributing to impactful tech projects. My goal is to support digital literacy initiatives, especially in underprivileged communities, while continuing to grow as a software engineer.

Professional Experience

2023/02 – 2024/02

Project Manager ‖ Software Developer
ULDEV SOCIETY
As a co-founder of the ULDev Society, I specialized in web and mobile development while providing career guidance to fellow students. Over the course of 1 year and 2 months, I was responsible for organizing events, enhancing the society's online presence at the University of Limpopo, and equipping students with valuable technical skills. My role involved fostering a collaborative environment where students could develop and refine their expertise in technology.

Education

2020/02 – 2024/06
Mankweng Turflop

Bsc(Mathematics & Computer Science) Graduate
University Of Limpopo
Complex Analysis | Linear Algebra | Abstract Algebra
Introduction to Database | Computer Network | Operating System |Artificial Intelligence | Computer Architecture | Data Structure | Data Organization | Computer Concepts
